Alternatively the vanity unit can be ordered with matte white solid surface countertop (as bespoke).

CLASSIC AND TIMELESS

Elegant solid oak vanity and high unit in classic and timeless design.

Bergen vanity unit is handmade of solid European oak with stylish 6mm edges. The drawers have high quality Blum Movento Blumotion runners with both push-open and soft-close and large integrated LED light with IP motion sensors.

Our special design allows you to use the full space in the drawers if no trap is needed.

Matching high unit with 4 high quality glass shelves, and door with soft-close hinges, that can be placed in either left or right side.

Full size inner drawers for maximum storage space.

Bergen comes in 3 different sizes and a high unit.

High unit has 4 high quality 5mm glass shelves. Door can be placed left or right.

TIME FOR YOU

The time you spend in your bathroom should be about a moment of peace – TIME FOR YOU. This is our philosophy and the mission behind the Copenhagen Bath design. We offer not only great visual design but also functionality and mentally quiet and characteristically simple Scandinavian style.

Our own Acovi® is 100% solid composite and is a completely pore-free material, that can be cast, shaped and even cut very thinly. This gives us amazing and unique possibilities when creating beautiful bathroom furniture. It withstands the wear and tear of time and splashing water. Always easy to clean and maintain which makes it perfect for the wide range of products, like wash basins, bathtubs, cabinets and shelves, that Copenhagen Bath offers.

Made to measure: We even produce our designs in custom measurements to create your dream bathroom. Don't hesitate to ask for a basin, cabinet or countertop made bespoke to fit into your home.
