9.44kg net

Nordland 50 basin details:

This Acovi composite wash basin, in a simple style with built in waste, is now available as a new model. This model is different in that, a smaller plate is covering the waste, instead of a visible waste. This gives the basin an extra fine finish. The wash basin can be mounted directly on the wall or freestanding. It is possible to deliver this wash basin made-to-measure. After all, no bathroom is the same. There will be a longer delivery time for bespoke products.
