STUDIO MIKAL HARRSEN

MILAN | COPENHAGEN

# STUDIO MIKAL HARRSEN

MILAN | COPENHAGEN

Since 2012 Mikal Harrsen has been designing bathroom furniture for Copenhagen Bath. Bathtubs, basins, cabinets and a wide range of accessories which all are a part of the exclusive Copenhagen Bath Scandinavian Suite series.

The idea behind the project was to combine Scandinavian traditions of wellness with an elegant and classic styled design with optimal comfort.

Throughout his career Mikal Harrsen has focused on creating original design solutions for clients and brands with ambitious projects and product portfolios.

Mikal is a designer who lives through visual impressions. Designing an object is like developing a picture - the creative vision is captured mostly through the senses. He regards the design process as the individual filter which he uses when defining a physical form or object for the vision.

YUNO DESIGN  
GERMANY

# YUNO DESIGN

MANNHEIM / GERMANY

Lena Billmeier and David Baur joint forces and founded their own product design studio in 2012. Important within their work is to create simple and timeless yet

emotional products, with a strong and distinctive brand image. Working hands-on with mock-ups, prototypes and experimenting with materials is a vital part in their design process. In combining their german roots with global influences they aim to challenge themselves to create fresh, innovative and beautiful design projects.

YUNO is known worldwide for their unique designs and functionality in there products.

They are designing products by understanding and meeting peoples needs. They believe that thoughtful design can make a difference, that it gives the consumer experience an extra touch.
