

SKAGEN

CERAMIC TILES AND SOLID OAK - NEW SKAGEN CABINET

If you are looking for a distinguished and exclusive look, please take a look at the Skagen Cabinet.

This cabinet combines the Scandinavian feeling and woodwork with beautiful ceramic tiles from Porcelanosa in Spain.

The core of the cabinet is made of solid oak which gives you a warm feeling when opening the drawers. The outside is mounted with 6 mm. ceramic tiles from Porcelanosa in grey/white - looking like marble but versatile like nothing else when it comes to maintenance.

By adding one of our Acovi® basins, of your own choice, the aesthetics will be complete for your bathroom.

TIME FOR YOU

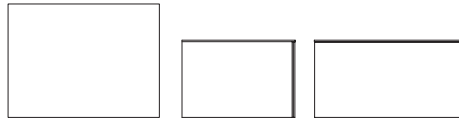

Grey/white ceramic tiles with marble look exterior and with matte laquered solid oak drawers.

Countertop SKU: 30040110

The countertop is ceramic tile and is very hard to drill. If you want the countertop with pre-drilled holes for drain and faucet, it is important that we get exact measurements of placement. Drilling is included in the price.

TIME FOR YOU

The time you spend in your bathroom should be about a moment of peace – TIME FOR YOU. This is our philosophy and the mission behind the Copenhagen Bath design. We offer not only great visual design but also functionality and mentally quiet and characteristically simple Scandinavian style.

Our own patented Acovi® 100% solid composite is a completely pore-free material that can be cast, shaped and even cut very thinly. This gives us amazing and unique possibilities when creating beautiful bathroom furniture. It withstands the wear and tear of time and splashing water. Always easy to clean and maintain which makes it perfect for the wide range of products, like wash basins, bathtubs, cabinets and shelves, that Copenhagen Bath offers.

Made to measure: We even produce our designs in custom measurements to create your dream bathroom. Don't hesitate to ask for a basin, cabinet or countertop made bespoke to fit into your home.
